

We are SOOOOOO excited to see you!

The safety of our staff and patients is our number one priority. As always, we will be following best practice protocols for infection prevention and control including all public areas of practice.

What this will mean for you:

Our staff are working very hard to ensure appointments are rebooked, therefore someone will be in contact with you. Please try not to call the practice unless you have an emergency.

During this phone call our staff will be conducting a Health Check verbally but also updating your Medical History via email before your appointment.

When you arrive for your appointment, please stay seated in your car until a staff member signals for you to come in to clinic. Only the patient is to come in to the appointment.

Please use provided Hand Sanitizer on entry and exit of clinic.

We will repeat our Health check questions and may take their temperature before you are seated.

Please observe the health and safety information displayed throughout the practice and follow the directions of practice staff, **PLEASE DO NOT ATTEND IF YOU OR ANYONE ELSE IN YOUR HOUSEHOLD FEELS UNWELL.**

When you are FINALLY in clinic, you will see all our same friendly faces, smiling behind our shields.
